Dear Mr. Konsin,

Thank you for applying to NIDA “\$100,000 for Start a SUD Startup” Challenge.

Your application “Prapela – an award winning solution for Neonatal Absence Syndrome” was selected to receive \$10,000 Prize Award.

Your team (Prapela Inc.) is encouraged to use the prize funds to develop a minimum viable proof (MVP) and obtain customer feedback to discover if MVP meets the customer needs. We are willing to provide you with assistance and advice at each step. We are willing to communicate with your team regularly and work out your idea so it is scientifically and commercially sound. Our greatest desire is to make sure that, within 6 months, your team is sufficiently prepared to apply for substantial NIDA SBIR or STTR funding made available to the small businesses working in the areas of biotech.

We are looking forward to the productive collaboration,

NIDA Challenge Team

Irina Sazonova, Ph.D.

Health Scientist Administrator

NIDA Challenges Administrator
